MAINTENANCE AND ROUTINE INSPECTIONS
FOR MARINE ELEVATORS

WHY HYUNDAI ELEVATOR?

A TOTAL MOVING SOLUTIONS PROVIDER

Hyundai Elevator is a transportation equipment supplier that offers comprehensive services ranging from the design of elevators and escalators to their manufacture, installation and maintenance. Founded in 1984, the company has been the market leader in Korea for the past 16 years. It has also been the leader in land-based elevator maintenance in Korea for the past 8 years.

Shipboard elevators need to be safe and reliable for the benefit of crew and pilots. Hyundai Elevator is an elevator manufacturer that provides advanced maintenance services at major ports for the crew's convenience and shipowners' confidence.

GREATER VALUE FOR USERS AND SHIPOWNERS

- Greater safety and comfort.
- Appreciation of the ship's value with the application of advanced technology and availability of comprehensive services.
- * Flag administration requires periodic inspections of ship elevators (6 months, 1 year, 2 years, 5 years, etc. depending on the corresponding flag administration).

REASONS WHY YOU SHOULD CHOOSE HYUNDAI ELEVATOR

No.1

- Ranked 1st in market share in the Korean elevator market for 16 consecutive years (No. 1 in land-based elevator maintenance in Korea for 8 consecutive years)
- Ranked 1st in market share in the global marine elevator market

Global Network

- Quick delivery of maintenance services at major ports around the world through a global service network

Genuine Parts

- Certification and warranty of replacement parts
- Company-wide quality control based on ISO 9001

MADE IN KOREA

Hyundai Elevator's new 172,759 m² factory in Chungju is a state-of-the-art smart factory that is 78% automated and equipped with AI technology.

PRODUCT DEVELOPMENT THROUGH EXHAUSTIVE QUALITY VERIFICATION

Hyundai Elevator thoroughly tests the safety and reliability of its products at its Hyundai Chungju Test Tower. The tower stands 243 m above ground and 15 m underground, replicating the environment of an actual high-rise building.

243 m

GLOBAL SUPPLY CHAIN

Hyundai Elevator's global network enables it to respond quickly and effectively to service calls at major ports around the world and to use reliable genuine parts.

GLOBAL SERVICE NETWORK

RAPID PARTS SUPPLY SYSTEM

Hyundai Elevator has a global service network of qualified service agents that maintain a stock of essential parts for urgent requests.

USED PARTS MANAGEMENT

Hyundai Elevator actively manages used parts by collecting and disposing them immediately for customer safety.

22 SERVICE POINTS

RELIABLE GENUINE PARTS AND QUALITY ASSURANCE

Elevators need to have parts continuously replaced due to breakdowns and long-term wear and tear. Hyundai Elevator Maintenance Service uses certified replacement parts and provides warranties in case problems occur.

In addition, Hyundai Elevator is committed to improving components' safety by operating an ISO 9001 quality management system and complying with relevant regulations across all sectors including development, design, purchasing, production, and service.

QUALITY MANAGEMENT

Hyundai Elevator has established a company-wide quality management system based on ISO 9001 and has implemented it continuously.

RELIABILITY

Hyundai Elevator's centralized quality control team regularly tests the parts that the company manufactures to ensure reliability. Strict quality controls focusing on accident prevention guarantee that only high quality parts are produced.

DURABILITY

Hyundai Elevator's manufactured parts undergo rigorous durability tests to ensure that only proven products are used on site.

THE IMPORTANCE OF GENUINE PARTS

Ensures safety and durability

Provides quality assurance

Results in long-term cost savings
